Registration no.: Eco-T L6938 (Act no. 36/1947)  
Registrasie nr: Eco-T L6938 (Wet no. 36/1947)

Eco-Rhiz Soya is a bacterial inoculant for fixing nitrogen in the root nodules of soybeans. Eco-T contains the fungus *Trichoderma harzianum*, which helps control root diseases and enhances the growth of soybeans.

Eco-Rhiz Soya is 'n bakteriële entstof wat stikstof in die wortelnodules van sojabone bind. Eco-T bevat die swam *Trichoderma harzianum*, wat help om wortelsiektes te beheer en verbeter die groei van sojabone.

**Active ingredient / Aktiewe bestanddeel:**

Eco-Rhiz Soya: *Bradyrhizobium japonicum* strain WB74 (Minimum  $1 \times 10^{10}$  cfu/ml when diluted in 200ml water)

Eco-T: *Trichoderma harzianum* ( $1 \times 10^{10}$  spores/gram)

Expiry Date: .....
